DETAILED ACTION

1. Applicant's supplemental amendment filed on November 26, 2003 has been fully and carefully considered. Upon reconsideration the examiner concurs that the claims have been narrowed in scope and more importantly are distinct from the Uzunian et al. 6,627,212 patent. In Uzunian et al. the patent claims do not require a coating of titanium oxide or iron oxide as claimed and therefore Claims 1-10 and 12-19 are free of the prior art.

2. The following is an examiner's statement of reasons for allowance:

The invention relates to a food or pharmaceutical product comprising pearlescent or interference titanium dioxide pigments and/or iron oxide pigments each comprising a platy substrate coated with at least one layer of titanium dioxide or iron oxide, imparting coloring to the food or pharmaceutical product.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to N. Bhat whose telephone number is 571-272-1397. The examiner can normally be reached on Monday-Friday, 9:30AM-6:00PM.
